

UNIVERSITY OF SOUTH FLORIDA

2

COLLEGE OF HEALTH AND HUMAN SERVICES
INTEGRATION CENTER ON AGING

KEY FINDINGS

Built environment: More than older

- **Housing:** affordable, new, well-maintained, and universally designed homes. They also valued safe, affordable low-income housing with seasonal services, co-housing options, and access to reliable and affordable contractors.
- **Transportation:** affordable public transportation.
- **Outdoor spaces:** safe, well-maintained parks within walking distance that have exercise equipment and benches. They also valued good sidewalks and maintained, accessible public restrooms.

Social Environment: More than older

- **Employment:** accommodations/adaptability, new skills training, entrepreneurial assistance, and flexible, well-paying jobs for highly skilled workers.
- **Social participation:** education, intergenerational activities, and convenient entertainment.
- **Civic participation:** opportunities and volunteer training.

Service Environment: More than older generations, Baby Boomers

- **Community support and health services:** and age-focused exercises.
-
