

Tapas K. Das, Ph.D.

Professor and Department Chair,
Industrial and Management Systems Engineering

Office: ENC2400

Email: das@usf.edu

Tel: (813) 974-5585

Dr. Das received his PhD in industrial engineering from Texas A&M University. He attended a two-week long Institute for Educational Management (IEM) in 2010 at the Harvard Institutes for Higher Education at Harvard Graduate School of Education, Massachusetts. He has received over \$5 million in external funding, directed 14 PhD dissertations and 23 master's theses. He has published 47 refereed journal papers.

Dr. Das served as the Chair of the ENRE (Energy, Natural Resources, and the Environment) Section of INFORMS and was an elected member of the Subdivisions Council of INFORMS for 2010 and 2011. Currently Dr. Das serves the Chair of the Council of Industrial Engineering Academic Department Heads. He is a Fellow of IIE, member of INFORMS and IEEE.

, Texas A&M University, 1989
, University of South Florida, 1986
, Birla Institute of Technology and Science, Pilani, India, 1982
, National Institute of Technology, Durgapur, India, 1979

Current research interests include modeling and analysis of electric power network operations in conjunction with Internet of Energy (IoE) enabled smart and connected communities (smart cities), renewable electricity generation and CO₂ emissions control policy planning. He is also involved in developing decision making tools for better disease diagnosis and treatment planning for cancer care and mitigation of the potential impact of influenza pandemic outbreaks.
