PROPOSAL FOR THE INSTALLATION OF IRRIGATION SYSTEMS AT THE UNIVERSITY OF FLORIDA CAMPUS. The project involves the design and installation of a comprehensive irrigation system for the University of Florida campus. The system will include the installation of mainlines, laterals, and emitters, as well as the construction of a central control building and the installation of a computerized control system. The project is estimated to cost \$1,000,000.00. The University of Florida is seeking proposals from qualified contractors to complete this project. The deadline for the submission of proposals is 11:59 PM on the date specified in the proposal. The University of Florida reserves the right to accept or reject any or all proposals without obligation. The University of Florida also reserves the right to modify the project as needed. For more information, please contact the University of Florida Office of Facilities Management at (31) 7-21-4712.
